# Concentrate Jars

Storing cannabis concentrates correctly preserves their potency for months later, they will be as viable as when they were purchased. Concentrates need protection from oxygen, light, moisture and temperature. Storing them in professionally designed containers reduces their exposure to the elements that degrade them. Different concentrates have different storage requirements due to their varying consistency.

# Custom Mylar

Why is Mylar the preferred method for storing cannabis?

- | The bags prevent light from getting through.
- | They maintain the integrity of the color, odor and taste of the buds.
- | They effectively keep out air, moisture and heat.
- | They are slim, lightweight and sturdy.
- | They can be re-used.
- | They are free of toxins.
- | They are legally compliant!
  - Child resistant
  - Smell-proof
  - Tamper proof
- | Super Durable
- | An affordable packaging solution.
- | Offers a canvas to feature artwork and promote Your Brand!

Contact Gray Line at [Sales@GrayLineSupply.com](mailto:Sales@GrayLineSupply.com) or **405.562.6700** to speak with a sales representative.

# Gray Line Design

Designing your custom cannabis packaging is not like designing a business card. Product requirements must be included on the packaging to adhere to your state's compliance guidelines. It is important to choose a design company with product-specific design skills and knowledge!

Custom peel back label for product view.  
OMMA compliant!

**We don't just brand Cannabis Companies!**

We can brand any Product: Coffee, Cosmetics, Cigars, Soaps and more.

Schedule an appointment by contacting  
**ScheduleMe@graylinesupply.com**

# Now Partnering with Dab Rite™

## Why Dab Rite?

Why settle for anything but the best experience?

Dab Rite offers the first and only infrared thermometer on the cannabis accessories market to feature a fully adjustable sensor arm, allowing for far more accurate readings on a much wider variety of glass pieces than competing products. While creating a nearly universally usable product was our main priority, we also wanted to ensure that our Dab Rite Digital IR Thermometer would facilitate a more convenient and comfortable dabbing experience for both beginners and connoisseurs alike.

We know and understand the ritual of dabbing, and we set out to create a product that not only fits aesthetically with your rigs, mats and other fine accessories, but one that actually provides accurate temperature readings, enabling you to take the perfect dab.

Utilizing high grade industrial components and custom programming, the Dab Rite Digital IR Thermometer will alert you with light and sound when the temperature you set to take your dab is reached, so that you no longer have to worry about reheating your banger or taking a dab that is too hot. Say goodbye to chazzed bangers and hello to proper dabs!

# Dab Rite™

*We design for the connoisseur  
and beginner alike.*

**We are the first supplier in the  
state to work with Dab Rite!**

Contact Gray Line at  
**[products@graylinesupply.com](mailto:products@graylinesupply.com)** to order.

# Humidi.Co Eco-Friendly Packaging

Natural HumidiLids™ is the first of its kind home compostable and plastic-free cannabis packaging. In fact: utilizing a blend of bio-polymers, Natural HumidiLids™ breakdown in a microbial environment; leaving behind only water and CO2. Let's significantly reduce our carbon footprint together.

Natural HumidiLids™ is ASTM certified, child-resistant. Natural HumidiLids is an especially easy, convenient, and safe solution for packaging your premium flower products and stand out from the plastic crowd.
